Corren Troen

If you are looking for a single law firm that can take care of all your legal matters - private or commercial - Corren Troen may be the answer. Corren Troen's 22 employees can assist with everything from marriage contracts to commercial contracts. Besides, they have a special service for companies affected by the credit crisis: their credit crunch package. This comprises help with all problems a business may suffer during a credit crisis.

Corren Troen was founded by Danish Advokat and Solicitor Per Troen and Paul Corren in 2002.

We had a talk with Troen, who is also the Chairman of the Danish UK Chamber of Commerce, the Chairman of the Royal Danish Guards Association, on the development board of St.Catherine's College at Oxford University and on the board of the listed company Latchways PLC, to find out what makes Corren Troen a good choice when looking for legal advice.

What makes you stand out compared to other law firms?

Firstly, we have been in the country for 25 years practising law so we feel that we can offer the advice our clients need.

Secondly, we cover all things that one needs to have dealt with when you are a person resident in England or are involved in business in England. We take care of people privately, their family and their business - whether it is their own company or their employer. The third thing is that we are only here to listen to what the client wants to do and then do it as quickly and commercially as possible.

What kinds of businesses or people are your main clients?

It is very important to understand how legislation between our countries interacts when carrying out our work. As a consequence we have especially strong client relationships in Denmark and the Nordic regions as well as the US.
